 Light brewing barley malt
(Pilsen malt)

OJSC "Belsolod" is one of the largest and most modern enterprises in the field of light (Pilsen) brewing barley malt production in the countries of CIS and Eastern Europe. The safety management system of brewing barley malt production is certified in accordance with ISO 22000. The production capacity is more than 130 000 tons of malt per year. The enterprise is fully modernized and fitted with equipment of "BUHLER" company. OJSC "Belsolod" is constantly improving, developing its activities and mastering new products. The product range includes Pilsen malt, Vienna malt, wheat malt and specialty roasted malts of different colors. Annually Belsolod malt is supplied to different corners of the world and to more than 20 countries.

We would like to offer to supply LIGHT (PILSEN) BREWING BARLEY MALT (HS code 1107 10; foreign economic activity commodity nomenclature code 1107 10 9900) from two-row spring malting barley with the following quality parameters:
