

• sodium metasilicate •

Open Joint-Stock Company
"Domanovsky Production and Trade Plant"
of the State Enterprise "Brestmestprom"

INVESTMENT PROJECT:

Construction of a sodium metasilicate plant

The essence of the investment proposal:

Mastering the production of new types of products due to in-depth processing of manufactured products

Infrastructure:

- Own branch to BelZhd - 0.1 km; Republican roads (distance in km):
- highway M-1 / E-30 Brest (Kozlovichi) - Minsk - border of the Russian Federation (Radish) - 5 km;
- highway M-11 / E-85 The border of the Republic of Lithuania (Beniakoni) - Lida - Slonim - Byten - 1 km;
- motorway P2 E 85 Columns - Ivatsevichi - Kobrin - 3 km;
- The presence of a land area of 7.4069 ha;
- The presence of buildings with an area of: 4470 m²

The company's performance indicators for the previous 2019 year

- industrial production - \$ 9,1 million;
- export volume - \$ 7,0 million;
- export growth rate by 2018 – 130,5%;
- average number - 167 people;
- current liquidity ratio - 1.87

Produced products:

- Water-soluble sodium silicate
- Sodium water glass
- Sodium hydrosilicate hydrated powder
- Potassium hydrosilicate hydrated powder
- Liquid potassium glass

Possibility to expand production and install additional capacities
