Dear Sir, we thank for attention to our company. We hope for fruitful and mutually advantageous cooperation.

JSC "Lakokraska" is a part of the biggest byelorussian concern "Belneftekhim". It has been a leading producer of paint and varnish materials for different sectors of national economy during forty years.

The main activity categories are producing and selling of paint and varnish materials, polyvinyl-acetate dispersion, phthalic anhydride, plasticizers. Wide range of products consists of more than two thousand materials different colours.

Enterprise System of Quality Management is certified according to requirements of ISO 9001-2009; System of Environment Management is certified according to requirements of ISO 14001; System of labour protection Management is certified according to Standard of Republic of Belarus 18001-2009.

**JSC "Lakokraska" produces products mentioned below:**

#### **ALKYD RESINS**

3907500000(customs tariff): PF-060, PF-053 LidAlkyd 53, LidAlkyd 60 (can be used as a binding agent in pentaphthalic enamels)

#### **COATINGS**

3208909900(customs tariff): NTS-218, NTS-237, NTS-243 (for furniture decoration and other wood surfaces).

3208101000(customs tariff): wood-impregnating composition PF-11 (for protection of wooden surfaces and decoration of wooden constructions).

3208909109(customs tariff): ML-92 (for winding impregnation of electrical machines, transformers and electrical insulating details), PF-283 (for coating of metal and wood surfaces, PF-170 (for atmosphere resistant coatings on prepared surfaces from wood, aluminium and alloys of other metals, MCH-212, «UraLid» (for wood surfaces and parquet floor);enamels ML-12 C, ML-1214 ME, ML-158, PF-115, PF-133, PF-266, «BELOLUX TC 300AD», «Mobilux», UR-140, «AgraLid»; primers GF-0119, GF-021, «PrimeLid», «Flexi Primer» (for grounding and painting of wooden and metal surfaces); enamels EP-140, EP-152, EP-158, EP-773, эмаль «Hardtop AS»; primers EP-045 and EP-045 K, primer «ZincoLid», «Tankguard CV», «Fastprim», primer-enamel «Primecoat», «Jotamastic 80», «Jotacote Universal» (for corrosion protection); fosfating primer VL-02 (can be used for priming of metal surfaces, also for fosfating and oxidation), enamel organosilicic «ThermoLid 600» (can be used for protective painting of metal

surfaces, which are operated at high temperatures ), enamel Fastcoat, enamel BALISTA, primer BALISTA FILLER (for protection of metal surfaces).  
3208209009(customs tariff): enamel AK-555 (road marking paint for road concrete surface);primers CHS-04V, enamels CHS -558 V, lacquer CHS -76 (for coatings inside metal and ferroconcrete reservoirs, using for keeping and transportation wine-materials), primer CHS -059, enamel - CHS 759; lacquer CHS -724 (for protection of metal and ferroconcrete surfaces), inhibiting composition CHS -500 и CHS -500 K, primer CHS -068, enamel CHS -75F (for protection of metal surfaces); paint CHV-161; enamels CHV -16, CHV -124, CHV -785; lacquer CHV -784 (products of special-purpose for protection of concrete, metal and wooden surfaces).  
3905120000(customs tariff): polyvinyl-acetate dispersion (it is used as glue at bookbinding, at manufacturing of leather accessories, as a stiffener for cloth trimming, as a binding agent in water-dispersion paints).

### **PHTHALIC ANHYDRIDE**

29350000 (customs tariff): phthalic anhydride (can be used at manufacturing of plasticizers, alkyd resins, dyes, medicines and in mechanical-rubber industry).

#### **Our merits:**

- scientific base, base for processing of raw materials and getting of semi-finished products for paint and varnish materials;
- possibility of low- and large-tonnage production;
- quality certificates, hygienic certificates, certificates of conformity for materials;
- wide range of paint and varnish materials (different colours) for different purposes;
- stable products quality;
- production for wholesale and retail trade.

**Delivery conditions:** payment conditions - prepayment. Basis of delivery - FCA Lida, DAP, CPT. The goods may be carried by vehicles (the third hazardous class), rail transport (tanks, goods van, container). Minimum party of delivery 18 tons.

**Selling of products at external market** constitutes approximately 70% of total selling volume. Enterprise exports paint and varnish materials to the different foreign countries: Europe countries and Asia.

Detailed information about enterprise and products is presented at our web-site: [www.lidalkm.by](http://www.lidalkm.by)
